Warranty

1. Warranty period of 7 years for the structural integrity of the upholstery to furniture under "normal use"
2. The warranty covers the timber and metal frames, the suspension and the foam integrity.
3. Fabric and leather wear and tear are not warranted.
4. Fabric and leather that has faded or broken down due to exposure to sunlight or extreme weather conditions is not warranted.
5. Care instructions and warranty claims of fabric to be addressed with the textile supplier or specifier.
6. It is the responsibility of the specifier and/or supplier that has selected and/or supplied a fabric or leather through 3rd party suppliers to ensure it is free of faults and fit for purpose and application.
7. Leather, sheepskin and other upholsteries with natural compositions can be prone to discolouration due to exposure to sunlight. This is not considered a fault and is not covered by warranty.
8. Warranty period of 3 years for the structural integrity of the metal to furniture under "normal use"
9. Chipping and scratches on powder coated metal due to wear and tear are not warranted
10. Metal pieces that are not specific to outdoor use that are exposed to the elements are not warranted
11. Raw metals oxidise and tarnish over time and are not considered faults of manufacturing

These terms apply only to projects and orders within Australia. For warranty claims outside Australia, a 12-month warranty applies, managed by the international selling agent. For full warranty details, visit the Grazia&Co website at www.graziaandco.com.au/warranty.

Lead time: 8-10 weeks. Lead times may vary during peak periods.

Suitability: Indoor use.

Australian made

No direct sunlight

Do not dry clean

Do not machine wash

Do not iron

3-7

3-7 year warranty

House leather care

Protect from direct sunlight, heat and weather. Dust with a clean dry cloth or use the soft brush attachment on your vacuum cleaner. Remove all liquid and food spills immediately. Wipe with a clean cloth dampened with proprietary brand leather cleaner suitable for a surface finish leather.

Velvet

All spills must be actioned right away- blotting the area immediately with a clean, dry absorbent cloth. Never bleach, tumble dry, machine wash or iron. Have velvet upholstery professionally cleaned according to the velvet suppliers' recommendations. To remove dust, vacuum regularly using low suction and soft brush attachment or using a soft lint brush.

Cotton and polyester

Protect from direct sunlight. Vacuum regularly using low suction and soft brush attachment. Professionally clean in accordance to the fabric suppliers' instructions. Treat spills and stains as soon as possible with a clean damp cloth. Dry in the shade, allow to dry before use.

Custom specified upholstery

Please refer to individual suppliers for information on care and maintenance of fabrics that have been specified by a designer, as these will be outside the standard grazia&co range. Most interior upholstery fabric should be regularly vacuumed and kept away from direct sunlight.

Powder coated items care

Wash as required with warm soapy water using a soft clean cloth. For marine or commercial environments, we recommend regular cleaning. Do not pressure wash or steam items that are powder coated. If powder coating chips due to a knock and / or rough treatment this is not covered by warranty. touch up paint can be purchased on request (depending on availability). scratches and chips should be repaired as soon as they appear.

Timber and timber veneer

Our timber furniture is finished with a clear satin lacquer containing an ultraviolet light protector, which helps reduce the effects of direct sunlight but cannot completely prevent fading or discoloration. To maintain your furniture's appearance, avoid prolonged exposure to direct sunlight.

Hot crockery should not be placed directly on the surface, as it may burn, discolor, or damage the finish. Use coasters, cloths, or mats as protective barriers. Keep the furniture away from heating and electrical appliances, and avoid excessive exposure to moisture or liquids, as these can cause warping, cracking, or mold.

When using the furniture as a writing surface, Grazia&Co recommends blotters or pads to prevent imprints from ballpoint pens. Objects placed on or against the furniture should have padding to prevent scratches or dents, particularly from bare metal or sharp edges.

Please note that a small degree of natural timber movement is normal as it adjusts to changes in humidity and temperature in your home.

To view the full care and maintenance please refer to the Grazia&Co website at www.graziaandco.com.au/care
